Bogdan Fotescu

Barcelona, Spain   bogdan@fotescu.com   lesmnif   (+34) 611 487 040

I am a fast learner. Passionate about all kinds of tech and building meaningful stuff that adds value to the end user. Curiosity, a growth mindset and thirst for new knowledge is what drives me.

Projects

Vibez

Aug 2022–Sep 2022

- Vibez is a PWA built with Next.js (React.js) and Tailwind.css on top of Spotify API, Unsplash API and Supabase.
- Its main goal is to help people share and discover new music based on different feels or "vibes". You can browse vibes to explore or create your own new Vibe. You can also share vibes.
- Submit songs to any given Vibe. You can submit what you're currently listening to or search for specific songs.
- All Spotify playlists are synced with Vibez, the only thing you have to do is choose the one to which you would like to add Songs while browsing. You can also create a new Playlist on the Vibez interface, play and like songs.

Bogd.app

Mar 2022–May 2022

- Bogd.app is a progressive web app built with Next.js (React.js) and Tailwind.css.
- Its main goal is to help people that work with kids doing leisure activities, helping you find the perfect game or song for your group of kids. Over +150 labeled activities, able to filter by age/participants/label.
- Music player with songs for kids and detailed game explanations.
- You can create your own songs or activities, so you can look out for them later.
- You can have a favorites list to save the songs or games that are working the best for you.
